ABOUT ME

I am a proactive individual who constantly seeks opportunities to grow both personally and professionally. As a group representative, I ensure smooth communication between students and lecturers. I am also a member of the Students Representation, where I serve as the International Student Affairs coordinator, helping foreign students integrate into our academic community and addressing any issues they may encounter. In addition, as an Ambassador for the Faculty of Civil Engineering, I actively promote our faculty's programs to prospective students. I am organized and responsible - I can manage my time effectively and work well in a team, which is especially important in my activities.
