FOR

VILNIUS TECH

Student Representation of the
Faculty of Civil Engineering

MOTIVATIONAL LETTER

Hello,

My name is Viltė Štakaitė, I am a second-year Construction Engineering student at the Faculty of Civil Engineering, a member of the Student Representation, International students affairs coordinator, a member of the VILNIUS TECH Senate, and a class representative. From the very beginning of my studies, I have actively engaged in the university community because I believe that student initiatives and involvement can genuinely contribute to the development and improvement of the university environment. As the International students affairs coordinator, I work closely with students from diverse cultural backgrounds and assist them in integrating into both academic and social settings. This role has taught me responsibility, intercultural communication, and the ability to handle organizational challenges constructively. My experience as a class representative has strengthened my skills in representing student interests, maintaining communication with lecturers and the administration, and ensuring a smooth daily academic environment.

I am running for the position of Chairperson of the Student Representation of the Faculty of Civil Engineering because I aim to contribute even more actively to improving the well-being of our faculty community and its academic environment. It is important to me that every student feels heard, supported, and has the opportunity to engage in university life both academically and socially. In this role, I would work to strengthen the relationship between students and the faculty administration and lecturers, encourage community building and student initiatives, represent student interests at the university level, and ensure that the student representation is open, visible, and accessible to everyone. I strongly believe that the student representation is a team, and the strength of a team relies on shared goals, involvement, and mutual trust. Therefore, I would place particular emphasis on fostering team motivation. I am convinced that only a strong and motivated team can create meaningful changes and ensure consistent, high-quality representation.

I am motivated, responsible, and ready to take on this role, dedicating my time, energy, and ideas to work towards positive changes that contribute to the well-being of all students.

Sincerely,

VILTĖ ŠTAKAITĖ
